PROFESIONAL SUMMARY

Motivated Full Stack Developer with foundational skills in HTML, CSS, JavaScript, React, Node.js, Express, and MongoDB. Built responsive web applications using Tailwind CSS, Bootstrap, and ShadCN UI. Familiar with API testing tools like Postman and Thunder Client, and basic knowledge of Docker and Deployment. Eager to learn and contribute to real-world projects in a professional environment.

COURSEWORK

- Data Structures & Algorithms
- Object-Oriented Programming (OOP)
- Database Management System (DBMS)
- Computer Networks
- Operating Systems

PROJECTS

CodeVue 🔗 | React.js, Tailwind CSS, JavaScript, Node.js, Express.js, PostgreSQL, Prisma, Judge0, Docker

- **Developing CodeVue, a fullstack DSA practice platform with code evaluation, instant feedback, and interactive dashboards with performance analytics and graphs.**
- Built RESTful APIs with Node.js/Express to handle authentication, problem management, and code submissions efficiently.
- Developed a responsive React.js frontend with user and admin dashboards, featuring real-time submission tracking and performance analytics.
- Used Docker to containerize the PostgreSQL database and implemented Prisma ORM for type-safe, efficient database interactions, ensuring consistent development environments and simplified deployment.

BlogIT 🔗 | React.js, Tailwind CSS, JavaScript, Node.js, Express.js, MongoDB, HTML, CSS

- **A fully functioning blog platform which enables users to post, write, like, comment, and interact with content on blogs.**
- Created a responsive front-end using React to provide a seamless experience on all devices.
- Built a blog dashboard for users to manage their posts, track interactions, and view engagement metrics.
- Implemented user profiles with search functionality to explore and connect with other bloggers.
- Used Node.js and MongoDB for a strong backend with efficient data storage

MoviesX 🔗 | HTML, CSS, JavaScript, TMDB API,

- **A Movie Information website that allows users to search for movies, browse through categories, view movie details, Movie cast information, trailers videos, and similar/related movies of that movie.**
- Used HTML and CSS to style the website, making it responsive and user-friendly, and JavaScript to implement website functionality.
- Integrated TMDB API to get live movie data and used JavaScript to dynamically update content.
- Deployed the project on Netlify for easy access to all users.

EDUCATION

Bachelor of Technology in Computer Science Engineering

2021 – 2025

Satyug Darshan Institute of Engineering and Technology

Haryana, India

10th & 12th Standard

2018 – 2021

K.G.S.B.V Chirag Enclave

New Delhi, India

TECHNICAL SKILLS

Languages: JavaScript, Python, Java

Frontend: HTML, CSS, Tailwind CSS, Bootstrap, React.js, Zustand, Context API, Component libraries (Material UI, ShadCN UI, etc)

Backend: Node.js, Express.js, REST APIs, JWT, OAuth

Database & ORM: PostgreSQL, MongoDB, MySQL, Prisma, Mongoose

Developer Tools: VS Code, Git, GitHub, Vim, Postman, Thunder Client, Docker
